TEST ROAD MATERIALS FREE

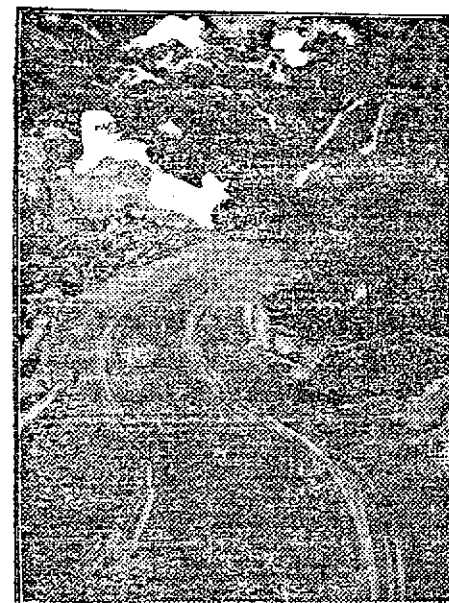

Machinery for New Laboratory Installed at Colorado Agricultural College.

(By O. V. ADAMS, Colorado Agricultural College, Fort Collins, Colo.)

The experiment station of the Colorado Agricultural college at Fort Collins has just completed the installation of the machinery for a new laboratory for the testing of road materials and is now fully equipped to make all the standard mechanical tests on rock, broken stone, slag, gravel, sand and top soil.

The laboratory has been installed for the purpose of aiding the people of the state in their road-building problems. No charge is made for the testing of any material; the sample must, however, be of sufficient size to enable complete investigations to be made.

The first systematic attempts to determine the value of rock for road building purposes by means of laboratory tests were made in France in 1878.

Stretch of Improved Road Between Cripple Creek and Canon City, Colo.

and the excellence of the French roads can no doubt be partly attributed to the selection of the best available materials for their construction.

In 1893, a road material testing laboratory was established by the Massachusetts highway commission, with the late Logan W. Page in charge. This work has developed until today there are many such laboratories throughout the United States, and road engineers are more and more coming to realize the value of such tests and to specify that material used in road construction shall measure up to certain established standard requirements.

INJURY DONE TO GOOD ROADS

Autos and Motor Trucks Do More Harm Than Steel-Tired Vehicles on Account of Speed.

There is more damage done to the roads now by autos and motor trucks than steel-tired vehicles ever did, for the reason of greater speed of motor vehicles and their drivers have the same fool tracking habit the horse drivers always had. Driving in the same tracks never damaged steel tires, but it is the destruction of the roads and rubber tires. The motor vehicle is worse for the roads than horse rigs on account of greater speed. The reason running in a track is damaging to rubber tires, is a sharp rock will be set in the side of the track with the sharpest corner out to nip a piece out of every tire, and sharp rocks cannot dodge or bounce out of the bottom of the track, but cut holes in the tires and break the fabric, causing the so-called stone bruises and rim cuts, even on properly inflated tires.

DOUBLED LIFE OF HIGHWAYS

French Engineers Find That Simple, Surface Coatings of Tar Were of Much Benefit.

It has been the experience of the French engineers in building roads during war times that simple, surface coatings of a tar preparation more than doubled the life of the road. This being true, it would seem advisable in the construction of all country roads, to cover the surface with some crushed rock or gravel, and then use the heavy tar preparation, because the binding effect prevents the material from slipping to one side; it holds the material intact and gives the road a hard-surfaced covering that is not only lasting, but adds to the efficiency of the road.

FARM STOCK

STOCK MAINTENANCE RATION

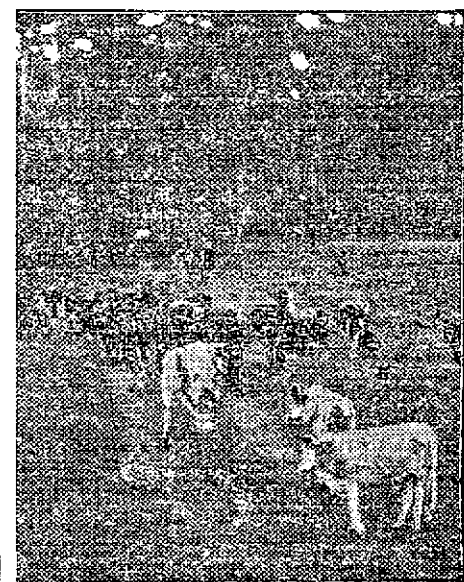

Silage, Corn Stover, Straw and Unmarketable Hay Should Be Given Cattle to Be Grazed.

(Prepared by the United States Department of Agriculture.)

The greatest obstacle in developing the grazing industry in many eastern and central sections is the cost of wintering the stock. It is impossible to buy young cattle or sheep in the spring in sufficient quantities and at a price to yield a satisfactory profit from the summer grazing.

One of two plans must be followed. A breeding herd may be kept to produce the stock, as is practiced on the ranges of the West, or young stock may be purchased in the fall—the plan followed by the grazers in the bluegrass region of the Virginias and Kentucky. Either method necessitates the wintering of animals.

Right here should be laid down a hard-and-fast rule. Cattle which are to be grazed the following summer

Cattle Feeding on Pasture.

should be carried through the winter on a strictly maintenance ration. Silage, corn stover, straw, and unmarketable hay should form its basis. The silo is almost indispensable for economical feeding of such stock. No grain should be fed if it can be avoided. It has been the experience of grazers in the bluegrass region that steers which have lost 50 pounds in weight during the winter finish the grazing period weighing the same as those which made a gain of that amount.

KEEP LARGER SHEEP FLOCKS

High Prices of Wool and Mutton Induce Western Growers to Increase Number of Animals.

(Prepared by the United States Department of Agriculture.)

As a result of high prices of wool and mutton and the value of sheep as weed and waste utilizers, western irrigation farmers are keeping more and larger flocks. As a rule these farm flocks are of good breeding, many consisting of purebred animals, their owners making a specialty of selling purebred ram lambs to range-country stockmen, who do not reserve breeding stock from year to year. Several projects are now operating wool pools, the main function of which is to concentrate the wool in large quantities and develop keener competition among buyers. Combination also favors grading and better classifying of wool and allows a small producer to realize greater profits from his sheep-farming operations.

CALCULATIONS OF HOG FEEDS

Light Thrown on Proper Combinations for Different Purposes—Big Aid to Grower.

The calculation of rations with the aid of feeding standards and tables will prove both interesting and profitable, for it will throw much light on the proper combinations of food for different purposes. At the same time it promotes a spirit of inquiry and close observation on the part of the farmer, which is one of the first requisites of a successful feeder.

LIVE STOCK NOTES

Lambs feeding in corn should never be short on roughage.

15c

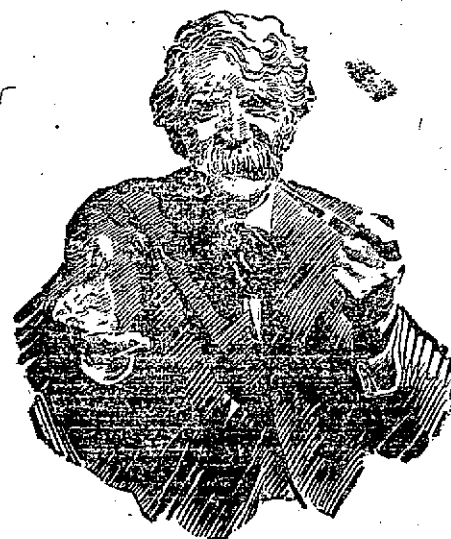

The Velvet tin is twice as big as shown here

There's a World of Solid Comfort In the Rich, Red Tin

YES, sir, we mean that same warm red and gold tin that smiles a welcoming "Howdy" to you in every tobacco store. Know what those colors mean?

The red is for the friendly warmth, the mellow cheeriness, that Velvet puts into your old pipe. And the gold is where the Kentucky sunshine, that ripens good old Velvet, has just sort of soaked through.

Remember what Velvet Joe said about it?

"You've met canned meat and canned music. Ever see any tinned sunshine? Well, look into any Velvet tin."

And think this over:

We don't have to hide Velvet's taste or smell with a lot of this, that and the other thing. Because Velvet has *naturally* what pipe smokers want—real simon-pure tobacco taste and fragrance. It's just good, honest Kentucky leaf, made still more friendly and mellow by two years' ageing in wooden hogsheads. Just good tobacco. That's all. But it's mighty near enough for the man who wants a pipeful of tobacco and not a box of bon bons.

The picture of a pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

How's the Velvet holding out in your old red tin?

Liggett & Myers Tobacco Co.

—the friendly tobacco

Calculating Feet in Knot.

The British admiralty knot or nautical mile is 6,080 feet and the statute knot 6,082.66 feet and is generally regarded as the standard. The number of feet in a statute knot is arrived at as follows: The circumference of the earth is divided into 360 degrees, each degree containing 360 knots or (360 by 60) 21,600 knots to the circumference; 21,600 divided into 131,385,456, the number of feet in the earth's circumference, gives 6,082.66 feet, the length of the statute knot.

Anyway, He Found It.

It was on October 12 I happened to meet my neighbor's little girl on the street during school hours. I asked her how it happened that she was not at school, and she looked at me with some surprise and answered: "Why, don't you know, it's Columbus day today?" Then, with seeming pity for me in my ignorance, she added: "Columbus discovered America. It was last year, I think."—Chicago Tribune.

Could Drink Water.

If among the innumerable beverages of colonial times a man could find nothing to quench his thirst, he must have been hard to satisfy. The Pilgrim fathers were much distressed because they were reduced to drinking water when they came to the New World. But Higginson, of Salem, proudly told his contemporaries: "I can and oftentimes do drink New England water very well."

Largest and Smallest Engines.

A young jeweler of Hillsboro, N. D., has made a tiny engine, run by compressed air, which is only three-quarters of an inch long and weighs only 2 1/2 grains. The diameter of the cylinder bore is .28-1000 of an inch, the diameter of the flywheel is .9-64 of an inch and its stroke is .36-1000 of an inch. Contrasted with this is a valve used by the Ontario Power company of Niagara Falls, which is 31 feet high, weighs 85 tons, and has a water-opening 9 feet across, so that an automobile full of men can stand in it.

SATISFYING RELIEF FROM LUMBAGO

Sloan's Liniment has the punch that relieves rheumatic twinges

This warming, congestion-scattering circulation-stimulating remedy penetrates without rubbing right to the aching spot and brings quick relief, surely, cleanly. A wonderful help for external pains, sprains, strains, stiffness, headaches, lumbago, bruises. Get your bottle today—costs little, means much. Ask your druggist for it by name. Keep it handy for the whole family. The big bottle is economy. 35c, 70c, \$1.40.

Friday, October 24th, 1919.

Entered at the Post Office at Bedford Pa., as second class matter.

NOTICE TO CONTRACTORS

Sealed proposals for the erection and construction of a reinforced concrete arch bridge over Shoups Creek near Saxton, in Liberty Township Bedford County, Pa., will be received by the Commissioners of the County of Bedford, State of Pennsylvania, until twelve o'clock noon of the 11th day of November, 1919, and publicly opened at the office of said commissioners at two o'clock of the same day.

Plans, specifications and blank proposals can be obtained at the office of the County Commissioners in the Court House at Bedford, Pa., or at the office of Owen & Pomeroy, Inc., Engineers, One Building, Johnstown, Pa., on the payment of two dollars and fifty cents (\$2.50) and no refund be made for return of same.

The above said bridge has the following dimensions: Span, sixty feet (60'); rise ten feet (10'); skew ninety degrees (90'); width roadway sixteen feet (16') necessary wing walls and guard railing.

Each proposal must contain the full name of the party or parties presenting the same and must be accompanied by a certified check for an amount not less than five per cent. of the contract price on a solvent bank doing business in the state of Pennsylvania, as a guarantee that if the bid is accepted a contract will be executed by the bidder within ten days after the notice of award of contract is given.

All proposals must be made on the blank forms attached to the specifications, as none other will be accepted and they shall be sealed and addressed to the Commissioners of the County of Bedford, Pa., and endorsed on the outside of the envelope contain the word PROPOSAL FOR ERECTION OF COUNTY BRIDGE, and the name and address of the bidder.

The Commissioners reserve the right to reject any or all bids, to waive irregularities, and to award the contract as may be deemed to be the best interests of the county.

By a vote of the Commissioners of the County of Bedford, this 22 day of October, A. D. 1919.

T. C. Bradley,
Albert Layton,
Nevin Diehl,
Commissioners of the County of Bedford.

JOHN N. MINNICH,
County Solicitor.
Attest:
George R. Shuck, Clerk.

Post Office Asks \$1,500,000

A supplemental appropriation of \$1,500,000 to provide 2,000 additional postal clerks, was asked of Congress by the Post Office Department. Acting Postmaster General Kohns, in a letter transmitting the request said this money would be used for the immediate employment of 2,000 additional postal clerks, adding, that he deemed this "imperative to the proper handling of the mail during the remainder of the year."

Who Claimed the Flowers?
The minister who made the following announcement seems to have been prepared for untoward results from his preaching. "There are some flowers here," he said, "for those who are sick at the close of this service."—Youth's Companion.

Roads Dragged Into Politics

Continued From First Page

POOR HOUSE BUNGLERS

No one seems to concern himself about the poor or the poor house management. Any individual conducting his personal affairs as is done at the Almshouse would have a committee appointed in lunacy by his friends. Neither time nor space permit us to lay bare the management, which, if not a fraud, is a huge joke. In the last four years the requisitions on the county funds has run up from \$14,000 to \$18,000, and it is predicted next year it will reach \$22,000. These sums are consumed in part by such items as

	Supplies for Maintenance, in Almshouse	Outdoor Expenses
1915	\$3,595.93	\$5,956.46
1916	5,312.38	6,814.28
1917	6,031.25	6,861.98
1918	6,134.52	6,169.25

The system of out door relief has grown to be a gigantic abuse—it ought to be overhauled and the unworthy ones stricken from the list. That costs more today than it did a few years ago for the whole maintenance in the Almshouse. It affords the Directors a chance to increase their allowance by filing bills for traveling expenses of nearly \$300 each year, in violation of law as we have been informed from legal sources. We are told by authority equally as good, who is familiar with the poor house management, that while exceptional cases of out door relief may be granted, yet no person shall be entitled to claim relief who refuses to go to the poor house. A disregard of this law is costing the county illegally over \$6,000 a year.

There is no account appearing as to what becomes of the supplies for maintenance in the Almshouse. The bills for same are paid to the persons furnishing the goods, but where is a system by which a check is kept upon an honest distribution of the supplies—no where.

Sam Baker is going around claiming he should be reelected for the fine manner in which he runs the farm. Here is the statement from the Auditors' Report.

	Receipts from Sales of Stock and Produce	Farm Expenditures
1915	\$708.26	\$1,718.15
1916	311.90	2,283.29
1917	230.45	2,055.40
1918	694.03	3,450.41

An average of nearly \$500 in receipts each year with yearly average of \$2,100 for expenses. Nothing appears as to how much is for stock and how much for produce, but such methods would buy up John D. Rockefeller.

It is true that with each report there is a statement of stock on hand and what was raised in produce during the year. But there is not a line as to what becomes of any of it except what is sold as above. It is presumed that some of it is used in maintenance, but how much is disposed of or hidden or spirited away by some one, cannot under their system appear. The money goes to the support of the Almshouse should be added to the maintenance account and appear in good bookkeeping. This is what a good accountant tells us, and in that way it would show whether the farm is profitable or not, and whether the custodian of the property is faithful or dishonest or dishonest. The statement does not show whether anything was left over from the previous year or what became of it.

The whole pack—Baker, Hillegass and James—the man expected to advise them are violating the law every day, for the same legal authority tells us that the law requires the Directors every year to publish a full and correct statement of the profits arising from the farm under their direction. It is supposed they don't publish it because there are no profits. The only statement published shows it is run at a huge loss.

It is a joke. It is worse. It is a howling farce and perhaps a fraud. Sam Baker may know how to plant corn, and George Hillegass how to grind it, and they and others may know all about the rule of addition, division and silence, but they know no more about business methods in an institution like the Poor House than does a mule about the rule of three. But where was Harry James, the clerk and attorney? Showing the same incompetency that he does in the Criminal Courts. If the people don't dismiss them the court should be asked to do so.

Isn't it about time to turn the incompetents out? Give us a new deal with new men in the person of M. E. Kensinger and Jacob Finley. What man interested in the poor would hesitate on the ground of politics. Think of this, too, in the light of the appalling fact that in a county with a population of less than 40,000 souls, the expenses of our Almshouse in 1918 were

The expenses of inmates in asylums	\$19,291.36
Total from Auditors' Report	\$28,727.88

In the name of humanity, economy and intelligent business ways, turn out the incompetents and give us new men, so we may have by the aid of expert accountants new methods and new light. If you do we promise you that by the aid of business experts we will put the administration of the poor house on an intelligent basis and raise the money by private subscription to have the investigation made and the work done, but this can never come to pass by keeping in these noodle heads.

Mr. Taxpayer, can you stand for the methods as they now exist, and will continue four years more if the Gang candidates are elected. We can stand it if you can, but why not get rid of the whole bunch on November 4th by electing men who have ability to fill our county offices. If you Mr. Taxpayer, were employing a man to do a certain line of work wouldn't you put forth effort to get the best qualified one? Of course you would. Then why not elect competent men to serve us as County officials.

Respectfully,

DEMOCRATIC CAMPAIGN COMMITTEE

Red Cross Institute at Pittsburgh

An Institute for Instruction of

Red Cross Nurses in Home Hygiene

and Care of the Sick will be held in

Pittsburgh on Wednesday, Thursday,

and Friday, October 23, 24 and 25.

There are a number of nurses who

are interested in the instruction of

Chapter classes in Home Hygiene and

Care of the Sick, and who will gladly

undertake it if some opportunity is

given them to obtain information

from the Red Cross standpoint, re-

lative to the organization and con-

duct of these classes.

All nurses within our Chapter ju-

risdiction who will attend this in-

stitute will kindly send their names

to Mrs. Frank W. Jordan, Jr., Chair-

man Bureau of Nursing, Bedford

County Chapter, A. R. C. Bedford,

Pa.

How To Make Good Bread

This Government booklet, which was prepared in the Office of Home Economics of the Dept. of Agriculture, tells of the qualities which go to make good bread, the principal requirements in bread making, contains receipts for making several kinds of bread, biscuits, and rolls. Tells how to judge good bread and discusses the nutritive value of bread and its place in the diet.

This booklet with its pages devoted to utensils, cleanliness, measuring, mixing and molding, temperature and care of the dough, shaping of the loaves, baking and care of the bread after baking will prove exceptional-ly valuable.

You may obtain a copy of this booklet free, by asking for F. B. 507, addressing the Division of Publications, Dept. of Agriculture, Washington, D. C.

SCHOOL REPORT

The following is a report of the Rainsburg school of Rainsburg Borough for the first month beginning September the 16th and ending October the 16th. Whole number in attendance, Males 13; Females 21; Total 34. Average attendance for the month, Males 12; Females 19; Total 31. Percentage of attendance, Males 91; Females 90. Total 90.

Honor Roll:—Lillian May; Jean Miller; Rebecca Miller; Alma Potts;

Rita Potts; Susie May; Olga May; Ralph Shipley; James Rawling; Walter Barnes; Armand May; Joe Miller; Kenneth Shaeffer.

Those missing one day were:—Elder Fawcett; Dorothy Smith; Margaret Diehl; Ruth Fawcett; Margaret Pennell; Mary Meyer; Laverne Pennell; Ruth Fawcett; Allan Miller; Jack Pennell. Visitors, five.

Cop Jay, Teacher.

Palmer's Price Was Nearly Ready

In anticipating that legislation to stop profiteering soon will become effective, the Department of Justice is putting the final touches to its plans for procedure.

After a review of the progress made so far, which was said to be very gratifying, considering that none of the laws requested of Congress has been placed upon the statute books, the conference discussed new steps to be taken when the "real campaign" of the Government is started.

Officials declined to indicate what they had in mind, but it is known that Attorney General Palmer if prepared to proceed vigorously in a number of individual cases, involving both foodstuffs and clothing as soon as the law becomes effective. The amendment has passed both houses of Congress and now awaits the President's signature.

National Events in a Nutshell

Congress enacted the dry enforcement legislation. The Senate passed the post office salary raise. The Belgian visitors were guests of Herbert Hoover in California. President Wilson continues to improve, but needs a long rest, say consulting physicians. Bituminous miners plan strike for November 1. Lieut. Maynard of Chester, Pa., the "flying parson" won the transcontinental flight making 5400 miles in 92 hours and 22 minutes. The state of Massachusetts held up bonus checks of conscientious objectors. Five hundred delegates, representing thirty-two nations met in New Orleans to discuss cotton problems. Col House, the President's personal adviser arrived in New York, slowly recovering from illness. The Shantung amendment was de-

feated in the Senate.

Nudges

Frank Berger has read where a common house fly becomes full grown in about four weeks. He thinks if one had all the bald heads he wanted to feed on he would be grown in about half that time.

The Gazette is accused of having said the Reubican Ring is "getting worse all the time." The Ring in some way has gotten hold of this expression and on the next regular Pooling the Gazette will be forced to attend and make a public apology. You can't say such, (even if it is true) and be considered a patriotic citizen of the county.

Miss Berney Beesley has a large wart on her neck just at the right place to keep a necklace from slipping down, but the poor old girl has no necklace.

George Smothers a Nicetown grocer, says if the public believes he is profiteering let them try paying his bills for awhile.

Mike Patrick says with his failure in making a corn crop one good killing frost will wind him up, as he is now depending solely on grass for stock food.

Phil May who does not claim to know much, says the country seems to be getting in a devil of a fix—half of it on a strike and the other half wanting to strike. He thinks there should be an effort made to get together.

The Bedford Fair was a great success. In addition to the many dogs entered for competition, Miss Mabel Barnes was entered in the popularity contest.

At the postoffice the other night the question of extending an invitation to King Albert and wife to visit Bedford was discussed and it was decided that we might not be able to treat them as good as they have been used to and it was considered wise to withhold any invitation, but to treat them courteously in case they decided to come voluntarily.

The mail carrier regards the words "In Haste" written on so many of the letters on his route as a reflection on his integrity. He says the postal service is one big system and one fellow's letter cannot be delivered ahead of another where both have the same destination.

Bill George a member of the Bedford Band, has been so hoarse this week he could hardly play his bass fiddle above a whisper.

When you need exercise you can stretch your legs a bit which is better than having them pulled.

Where ignorance is bliss, tis' folly to be wise, especially in the case of a fellow who has more money than he knows what to do with.

Get out and run against the world, but don't rub it the wrong way.

Mind your own business. If you don't mind some one else will.

Many a wise saw cuts no ice.

Old friends are best. A new broom sweeps clean, but it is apt to raise blisters.

Women succeed by carrying their ages lightly by dropping a few birthdays now and then.

It is very important to make yourself heard but the clock that strikes loudest doesn't always keep the best time.

It isn't always the best to sit on a man unless you determine first if he will stand for it.

If we could see ourselves as others see us we would want our eyes examined immediately.

Secretary Glass Signs Largest Check Ever Drawn.

Secretary Glass this week put his name to a check for \$2,643,309.171.53 said to have been the largest ever drawn. It was made payable to the Treasurer of the United States, but did not involve a transfer of that amount of money. It was made necessary to account for redemptions of certificates of indebtedness and other obligations in June. The largest check ever drawn on the Treasury for outgoing money was \$200,000,000 which was loaned to Great Britain.

Would Sell U. S. Ships

Declaring that "it is high time that the Government be released from competition with private business," a resolution proposing sale of the Emergency Fleet Corporation's ships to private enterprise was introduced by Senator Edge of New Jersey. The resolution declares that one of the practical methods of reducing taxation is to return to the Treasury funds given the shipping board and fleet corporation.

PLACES FOR HOLDING ELECTION

GENERAL ELECTION PROCLAMATION

God Save the Commonwealth

I, Andrew Dodson, High Sheriff of the County of Bedford in accordance with the Acts of Assembly, do make known by said proclamation to the electors of said county that a general election will be held on

Tuesday, November 4th, 1919 (it being the Tuesday following the first Monday of said month) in the several election districts of Bedford County, at which time and places and said electors will vote by ballot for the following officers to wit: One person for Judge of the Superior Court, one person for Associate Judge, one person for County Treasurer, one person for Sheriff, one person for District Attorney, one person for Prothonotary and Clerk of the Courts, one person for Recorder of Wills and Recorder of Deeds, three persons for County Commissioners, three persons for Director of the Poor, one person for County Surveyor and one person for Coroner.

The following is a list of all nominations made according to law and to be voted for at said election:

Oct. 24, 1919.

I hereby also make known and give notice that the places for holding the aforesaid election in the several wards, boroughs, townships, and districts within said county are as follows, to wit:

Bedford Borough, West Ward, at the cabinet shop of M. A. Stoner on West Pitt Street.

Bedford Borough, East Ward, at the barber shop of Henry Crawley on East-Pitt Street.

Bedford Township at the chair shop of Joseph B. May.

Broad Top Township in John H. Little's Hall in the village of Defiance.

Blomfield Township at the house of Adam Pote.

Colerain Township at the election house in the village of Charlesville.

Coaldale Borough in the council chamber.

Cumberland Valley Township in the I. O. O. F. Hall building in Centreville.

Borough of Everett in the Firemen's Hall.

Harrison Township at the election house near the village of Buffalo Mills on the road leading from Mann's Choice to Hyndman.

Hopewell Borough in the Opera House.

Hopewell Township at the election house at Benjamin Hall's mill.

Junata Township at the election house in the village of New Buena Vista.

Borough of Hyndman at the Council Chamber on Centre Street.

Kimmell Township in Town Hall of William F. Hainsey in the village of Queen.

King Township at Imler's school house.

Liberty Township at the election house, Third and Wall Streets, in the village of Stonerstown.

Lincoln Township at the election house near the village of Lovely.

Londonderry Township at the election house.

Mann's Choice Borough in building owned by Robert W. Cuppett, known as the "Big Red House."

Mann Township at the house of John Morse.

Monroe Township at the house of David Barkman in the town of Clearville.

New Paris Borough at the house of Mrs. John Coplin.

Napier Township at an election house on road leading from Schellsburg to Fishertown.

Pleasantville Borough in the Golden Eagle Hall.

East Providence Township at the election house in the village of Brezewood.

West Providence Township at the election house on State Street.

Rainsburg Borough at the Borough Hall on Main Street.

Ford

THE UNIVERSAL CAR

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; anyone can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

A Booklet on Training Small Children, Free.

This booklet which is prepared by the Bureau of Education contains 47 articles on training small children. The articles are all written by mothers who were formerly kindergarten teachers. Based upon kindergarten principles, these articles contain valuable hints for helping untrained women solve the perplexing problems which are constantly coming up. You may obtain a copy of this booklet free, by asking for Bulletin No. 39, 1919, addressing the Bureau of Education, Dept. of the Interior, Washington, D. C. Do not enclose return postage.

Great Majestic Range Demonstration
November 10 to 15

SPECIAL 5 per cent CASH DISCOUNT—Furniture, Carpet and Rugs

THE GREAT MAJESTIC RANGE DEMONSTRATION

FREE-- \$10.00 Set Aluminum With Every Majestic Range Bought.

"Ring the dinner bell"—and Bake the biscuits big, brown and quick

in the air-tight oven of your Majestic Range. The Majestic bakes everything—meats, breads, cakes, pies, puddings—wonderfully fine, because the Majestic construction makes it so easy for you to control the exact heat desired

All joints are riveted air-tight, and the flue lining is pure asbestos. No part of the Majestic Range can get rickety or loose. No heat can escape. With economy of fuel, you can have a slow, medium or hot oven, as wanted—and bake to your heart's delight.

Doors and Splasher Back Paneled in White Enamel

or in Blue Enamel, if desired. This lustrous enamel finish is the final touch to Majestic Range beauty. The smooth nickel trimmings, the natural finish charcoal iron, rust-resisting body, the blue burnished cooking top—are all so easy to keep newly bright, attractively clean.

The Majestic Range is not the lowest in price, but is the lowest in cost. It is sound economy to buy Majestic quality.

Great Majestic
The Range with a Reputation

YOU ALL KNOW THE GREAT MAJESTIC--NONE TO EQUAL IT

HOW TO GET THAT PRESCRIPTION FILLED

Collector Edwards has announced the rules under which liquor may be purchased for medicinal purposes under the revised, revamped, and reinforced prohibition amendment. The complete proceeding follows:

1. Patient develops a slight cold.
2. Speaks to wife about it; expresses opinion that hot whisky might cure it, and suggests hurry call for the doctor.
3. Wife suspects faking, and administers white pine syrup and hot lemonade.
4. Patient develops gripe.
5. Wife becomes alarmed and sends for family physician.
6. Family physician satisfies self

that patient is not camouflaging, but calls in nine other physicians, as required by law, to verify his findings and indorse the prescription for a half pint.

7. Bertillon expert is called to take finger prints, foot prints, nose prints and breath prints of patient all of which must be affixed to prescription for purposes of identification.

8. Patient is then required to fill out whisky prescription questionnaire, giving date of birth, color of fathers hair, number of cousins who were addicted to drink, date on which he took first sip of intoxicating liquors, number of times arrested for drunkenness, complete list of

severe colds, etc., etc., etc.

9. Patient develops Spanish in-

fluenza.

10. Physicians then send finger prints, questionnaire, etc., to Washington to the Senate Committee for the investigation of prescriptions for colds in the head and lungs.

11. Committee will summon patient to Washington for a congressional hearing.

12. Congress will hold two weeks quiz and then require a two thirds vote before prescription can be endorsed.

13. Patient will develop diphtheria.

14. Senate and House will finally endorse prescription but send it to the War Department, Navy Department, Postoffice Department, and Committee on Indian Affairs for filing purposes.

15. Patient will then return to home town on a stretcher and present finger prints, prescription and photographs, questionnaire, and congressional papers to druggist.

16. Druggist will then require eleven good character witnesses.

17. Druggist will then notify local revenue agents that prescription has been presented, and revenue agents will require carbon copy for card indexing.

18. Patient will develop pneumonia.

19. Druggist will go to cellar to fill prescription and find that his stock had exhausted.

20. Anti-Saloon League will raid drug store.

21. Patient will expire. (Slow music)

Heat ALL Your House THROUGH ONE REGISTER

Yes, it's just as possible in your home as it has been in fifty thousand others. You, too, may have every room comfortable with balmy healthful heat, reaching every corner by Nature's method of circulation—and all through only one register! It isn't necessary to clutter up your house with pipes, overheat your cellar and incur big bills—not when you can get the

**PIPELESS
CALORIC
FURNACE**
The Original Patented Pipeless Furnace

It can be set up in a day, without inconvenience to you, and will make your home so comfortable in the severest winter weather you will be well repaid.

Your house will be uniformly warm; your cellar will be just right for the storage of fruits and vegetables. Your fuel bill will be less than with stoves that heat only a part of your house.

HERE ARE THE REASONS

The Caloric is the Original Patented Pipeless Furnace—the result of the study of competent engineers to solve the heating problem in the most satisfactory way. That they have succeeded is proved by the fact that the number of Calorics sold on an annual basis of satisfaction is three times greater than any other pipeless furnace.

The cause of this satisfaction lies in the patented and exclusive principle that distinguishes the Caloric from all others. It is not a pipe furnace provided with an extra casing, but a complete revolution in furnace building designed exclusively for pipeless heating.

Come In And See Us

We will show you what these principles are, will then see what Caloric quality means, why succeeds and why imitations cannot accomplish results. Then you will be in no danger of buying inferior article, with all its disappointment in later years. Get a copy of the book "Progress," which tells about pipeless heating. If you can't come in, write

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL LESSON

(By REV. P. B. FITZWATER, D. D.,
Teacher of English Bible in the Moody
Bible Institute of Chicago.)
(Copyright, 1919, Western Newspaper Union)

LESSON FOR OCTOBER 26

A LESSON IN TRUST.

LESSON TEXT—Matt. 14:22-33.
GOLDEN TEXT—I believe; help thou
mine unbelief.—Mark 9:24.
ADDITIONAL MATERIAL—Mark 5:22-
24; 5:43; Luke 17:13-23.
PRIMARY TOPIC—Help in the storm.
JUNIOR TOPIC—Jesus comes to the
help of his disciples.
INTERMEDIATE TOPIC—Help when
most needed.
SENIOR AND ADULT TOPIC—An
ever-present helper.

The storm-tossed disciples on the sea at night is an example of the struggling followers of the Lord in the darkness of the present age, as they are tossed by the tempests of the evil one.

1. The Disciples on the Storm-tossed Sea (vv. 22-24).

1. They were sent across the sea by Christ (v. 22). Doubtless his reason for this was to keep them from entanglement in the movements of the people to make him king, for in John 6:14, 15 it is shown that the people were so excited by the feeding of the five thousand that they were about to make him king by force. Though they were somewhat unwilling to go, it was a mercy for him to constrain them.

2. Christ dismissed the multitude (v. 22). This may be taken as typical of his rejection of the nation whose rulers had already rejected him.

3. Christ praying alone in the mountain (v. 23). Temptation to earthly honor and power had come to him, therefore he went to the Father in prayer for relief and strength. The need of prayer is greatest at such times. While his prayer was in part for himself, yet it was for his disciples. According to Mark 6:48, he saw from the mountain top the disciples toiling on the storm-tossed sea. We are never out of his sight as we struggle against the storms of life, and he ever lives to make intercession for us.

II. Jesus Walking on the Sea (vv. 25-27).

1. It was in the fourth watch of the night (v. 25). He did not come to them immediately, but waited till almost dawn. It was, however, the darkest part of the night, and physical danger was great, but their perplexity of mind was greater. They knew that the Lord had sent them, but why should they be in such straits if he sent them? A stormy sea is no evidence that we are not in the Lord's appointed way. The disciples' concern should be to obey the commands of the Lord, being assured that while doing his will he will protect them.

2. The disciples alarmed at his coming (v. 26). It was the coming of their best friend to deliver them from danger. He comes to us today in such ways that sometimes we are affrighted.

3. Jesus' words of comfort and good cheer (v. 27). In the midst of their distress they heard the Master's words, "Be of good cheer; it is I, be not afraid." This changed their fear into joy.

III. Peter's Venture and Failure (vv. 28-33).

As soon as Peter recognized the voice of Jesus he cried, "Bid me come to thee on the water." Jesus said, "Come." Peter obeyed, and for a time he walked upon the waves without sinking. His simple faith linked him with divine power and he was upheld; but as soon as he took his eyes off his Lord and considered the raging sea he began to sink. If we will but keep our eyes on the Lord instead of the waves we can outstride the storms of life. When Peter began to sink, he did the sensible thing; he cried to the Lord for help. Jesus reached forth his hand and saved him. He has never lost one who honestly cried for help. When Jesus entered the ship the wind ceased. The people worshiped him as the Son of God. No ship can go down with Jesus on board.

Hath Not Where to Lay His Head.

People are to be pitied who have no home. John Howard Payne in Paris, homeless and miserable, uttered the universal longing of the human heart when in a cold and dreary garret he wrote the words of "Home, Sweet Home." There are many people in the world who are driven from pillar to post, and who can say of no spot on earth, "This is my home." Think particularly of him who had come from his Father's house to this inhospitable earth and who said, "The foxes have holes, and the birds of the air have nests, but the Son of Man hath not where to lay his head."

Sublime Sentiment.

"Beware," said Lament, "of him who hates the laugh of a child." "I love God and little children," was the simple yet sublime sentiment of Richard.—Mrs. Sigourney.

The Heart of the Believer.

The heart of the believer is the home of God. The church of the Lord Jesus is his holy temple. He dwells here by his Holy Spirit, and makes known through the church, to the principalities and the powers in the heavenly places, his manifold wisdom. This is a superlative honor. It brings with it a supreme obligation.

One Thing at a Time.

The shortest way to do many things is to do only one thing at a time.—Cecil.

DO YOU HAVE DIZZY SPELL

It's Important to Learn the Cause.
As Many Bedford People Have

Dizziness is never a disease of itself—it's only a symptom of some deeper-seated trouble. Much dizziness is caused by disordered kidneys failing to filter all the poisons from the blood. These poisons attack the nerves and dizziness results. If you are subject to dizziness, there is good reason to suspect your kidneys, and if you suffer backache, headache, and irregularity of the kidney secretions, you have further proof. Many Bedford people have learned the value of Doan's Kidney Pills in just such cases. Read this Bedford resident's statement:

Mrs. S. Delancy, W. Penn St., says: "Every time I have had any trouble with my kidneys I have used Doan's Kidney Pills and they have relieved me in a short time. Frequently I have had bad pains in my back and severe headaches and I would get so dizzy that the room would seem to be going around. At such times just one box of Doan's have driven the trouble away and I consider them a wonderful remedy for kidney complaint."

Price .60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Delancy had. Foster—Milburn Co., Mfrs., Buffalo N. Y.

To Shine Isinglass.
Use a Lannel rag moistened with vinegar to shine isinglass.

"Gee-Whiz! How it Hurts!" —The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order."

"Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

Dr. F. P. STEHLEY and SON

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction.—GOLD MEDAL Haarlem Oil is inclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease. Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

Camel

CIGARETTES

Cigarettes made to meet your taste!

Camels are offered you as a cigarette entirely out of the ordinary—a flavor and smoothness never before attained. To best realize their quality compare Camels with any cigarette in the world at any price!

Camels flavor is so refreshing, so enticing, it will win you at once—it is so new and unusual. That's what Camels expert blend of choice Turkish and choice Domestic tobacco gives you! You'll prefer this blend to either kind of tobacco smoked straight!

As you smoke Camels, you'll note absence of any unpleasant cigarettey aftertaste or any unpleasant cigarettey odor. And, you'll be delighted to discover that you can smoke Camels liberally without tiring your taste!

Take Camels at any angle—they surely supply cigarette contentment beyond anything you ever experienced. They're a cigarette revelation! You do not miss coupons, premiums or gifts. You'll prefer Camels quality!

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

MARKET SURVEY TO BE PUSHED

Expert in Reports on Crops and Market Conditions to Assist Chief Smith

WORLD'S CITIZENSHIP MEET

Interesting News Items, Briefly Condensed, Picked Up at the Departments, Which Are of Interest to the People of the State.

Harrisburg, Pa.—Eighty-two reports of market conditions in Pennsylvania cities and boroughs have been filed with the State Bureau of Markets in its inquiry into the situation and a general inspection of market houses, inquiry into facilities for curb markets, questioning of housekeepers as to their opinion of markets and other work will be undertaken in various parts of the State.

J. C. Gilbert, who has had extensive experience in the study of marketing conditions in New England, in the apple producing regions of the northwestern states and on the strawberry and onion crops for the United States government, will be placed in charge of some of the work and will direct the marketing reports service.

Guy C. Smith, director of the bureau, has sent letters to all mayors and burgesses inquiring about the market facilities in their communities and what requests they have had for betterments or assistance, while extended inquiries are under way as to what crops are available for marketing close to cities and towns.

It is proposed to inaugurate a daily crop reporting and market report service next summer.

Compensation Board Refuses Claim.

The Compensation Board refused to grant compensation in Hutno vs. Lehigh Coal and Navigation Co., Coal-dale case, where a claim was made that the husband of the claimant had been fatally injured while driving a team of company horses in a parade. The Board holds that no one "could carry the liability of this corporation into a patriotic parade which had no connection with the charter purposes of the corporation."

Director of Public Safety.

The latest story is that Colonel John C. Groome is to be director of public safety in Philadelphia. The head of the State Police is mentioned for the office whenever a new mayor is about to make up his cabinet.

Fight Against Diphtheria.

Medical officers have been sent by the State Department of Health to aid in the fight against spread of diphtheria in the Shamokin-Mt. Carmel and Monessen districts where large supplies of anti-toxin have been sent.

To Purchase Toll Bridges.

Plans for co-operation of the State of Pennsylvania with the State of New Jersey in purchasing of the remaining toll bridges across the Delaware river are to be submitted to the State Board of Public Grounds and Buildings. It is probable that similar steps will be taken in regard to New York.

Lay a bet on
rolling 'em with

PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes with Prince Albert is just about as joy'us a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

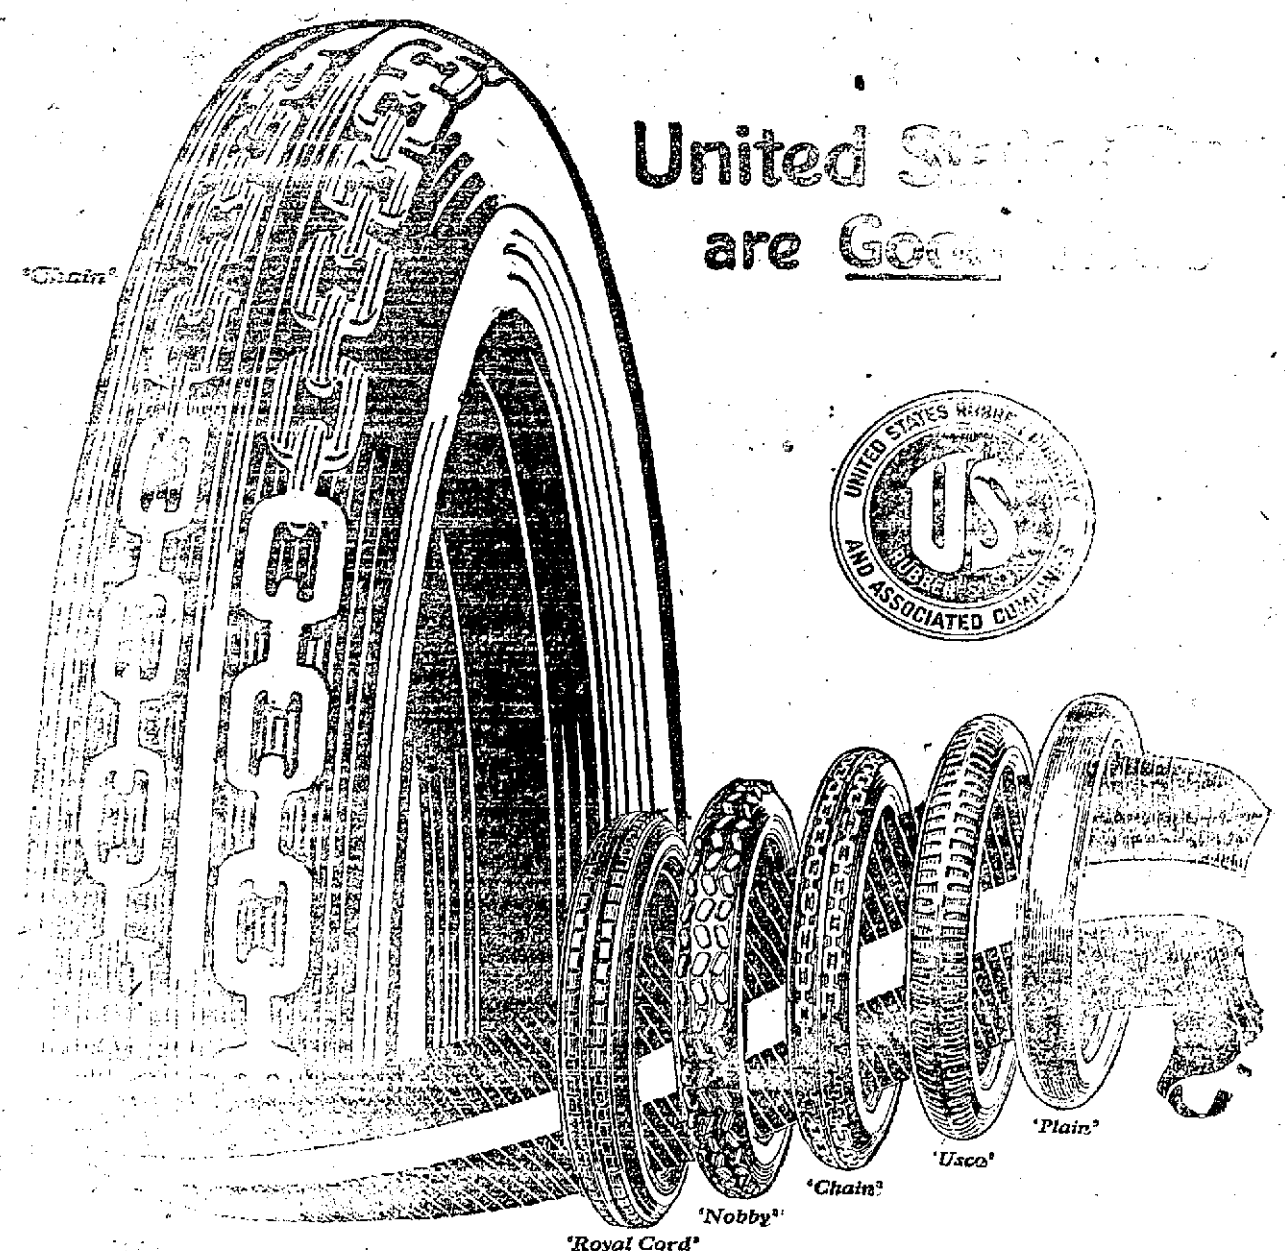

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

In the busy walks of life there is no room for a tardy man.

Promise With a Proviso.
A Chicago boy of six was being shown through the Art Institute by his mother, who stopped before one of the "old masters" and, after explaining the beauty and value of the picture, said: "Now, dearie, I won't tell you about this picture?" The young hopeful said: "Yes, I will if you will promise never to bring me here again."

Do Authors Enjoy Writing?
In an editorial on the financial rewards of the late Amelia E. Barr the New York World sets forth that sheer love of writing always produces the best results. "We object," says the Sun. "A canvass of writers who achieve the best results, our guess is, would show that nine-tenths of them don't love to write. There is a good deal of bunk about it, and it is hard to get honest answers; many writers are afraid to say they don't enjoy the writing job."

Steal Two-Story Brick.
A two-story brick structure at Albany, N. Y., with fixtures, bricks and everything, was carried away by thieves.

Fine Old Hen.
Lord Fisher tells of this blunt but amusing compliment paid to his country by an American admiral. It was at a dinner. Fisher had made a speech in which he said some nice things about America, and at the conclusion of it the admiral arose and reciprocated by saying: "It was a fine old hen that hatched the American of the British Transcript."

general public, the U S Public Health Service has issued this booklet which should be of interest to all parents. Readers of the Gazette may obtain a copy of this booklet free, by a letter to the Superintendent, 14, Broad Street, New York 1, New York.

Mr. and Mrs. Ed. Struckman of Wann's Choice visited his sister Mrs. Elias Ball on Sunday.

can soldiers, sick and wounded were in hospitals, and there was a shortage of 6,925 nurses. Nurses were dropping from fatigue around the operating tables at the finish, but
